April 11, 1961 - July 14, 2017

### WE NEED YOUR HELP:

My father had a massive stroke that completely paralyzed him on his right side 5 years ago. Yesterday my father passed away due to complications of the stroke. During the five years, my mother took care of dad in house. However my mother suffered a stroke last year. She had to place my father in hospice in January of this year since she could no longer care for him. Mom could still visit my father once or twice a week trying not to leave his side. Thank God she was there yesterday at his side. No one from hospice informed us that he was near passing. She found him in agony. He passed at 3pm yesterday July 14th, 2017.

We have no resources to cover the service. My mother had purchased a plot years ago but since she hasn't been able to work we are lacking funds. The funds will pay for services only and mother will be in charge and oversee all final expenses. Funeral appointment to sign paperwork will happen this Monday the 17th of July.

As a child, my father was an important part of my life. Helping to raise me and teach me the crucial parts of growing up. I will miss him a lot.

I thank you for taking the time to read this and hopefully can contribute for

services.

With all our hearts...thank you!

Marc Christian Villa (son)
