“ *May father will be remembered by all of us in the family as the most hard working man we know. He came from a very nice family that are farmers in the Bicol region in the Philippines. I never met my Grand parents and only have a picture of her mother Jovita who is my sister named after. There were 10 kids in the family and sad to say that all of them are now in heaven and hopefully having a grand reunion. Every one will say also that he is man with a few words because he hardly spoke and complaint. He could be bleeding and he will not say anything. My Mom called him Armstrong because not only he is a strong human being but also I was born during Neil Armstrong trip to the moon and I think that is where my Mom got the nick name for him. My father was a farmer, joined the Philippine Navy and a very good Electronic Engineer. He was a great provider. He often tell us random jokes that was really "corny" but because he talks so slow and it was coming from him we laugh so hard. He was very traditional and very conservative. He was determined to keep this family together whatever it takes. He decided he will be with my Mom all the time and he followed her everywhere. We love him for his determination, loyalty and courage. He will always be in our hearts. We miss and love you Papa.*

*Your favorite daughter:)  
Annaliza Slonim*
