“ I will always count John as one of my favorite managers. I am glad I had the chance to work with him and for him. We had a great working relationship and I enjoyed his style and the way that he helped get deals done working both the customer and internal management.

Craig Vallarino - September 08, 2015 at 12:02 PM

DL

John Hurley was the biggest impact to my sales career. He never hesitated to give me valuable tools to move my career into a successful one. Not only was John my boss, but after leaving Xyplex we stay connected and became a life long friends. He was always eager to hear what I was doing and was proud that he was a part of my success. One very important piece of advice that John clearly pointed (yelled at me) out to me was never, never, never put out a \$100 cigar half way through smoking it. Yeah, I learned that one the hard way. You will be very missed my dear friend and I hope you are enjoying a good cigar wherever you are.
