“ *My mom and her sister, Olga, were the youngest girls in a family of 5 boys and 5 girls. They were a wonderful family as I remember all the fun and laughter we had with my aunts and uncles. We met at every holiday and it was a joy to be in their company. I will miss my Aunt Olga dearly. I will miss her laugh and gentle manner. She lived near us and she was always very welcoming. I remember my mother and I stopping by for a short visit and she set out a lunch of spaghetti, salad and bread and something to drink in 5 minutes and she didn't even know before hand that we would be stopping in for a visit. I remember her being very stylish and frugal. She raised 8 children as a single parent for much of her life. Every week when all the kids were at home, she clipped the food coupons and shopped 3 markets to get all the specials on discount. She knew how to shop for less. My mom and I were always amazed at her resourcefulness. My Aunt Olga was a health model for me because I noticed how she was diligent about exercising. For the last 20 years, she walked no less than 5 miles a day every day. I also have been walking for exercise because of her model. I send my heartfelt condolences to her children, my cousins. She was a strong woman of faith and I know she is in the loving arms of our dear Lord for eternity. Love you Aunt Olga, Gena*

I met Olga at Community Hospital San Bernardino many moons ago and she was always friendly and smiling walking the many departments she had to go to. Many many later we became family when Michael my son met and married her daughter Sheila, beautiful Day. We enjoyed many family functions and outings. She was a walker and loved it, so admired her for that and at a late age in life. She loved her family and friends and we loved her back. RIP Olga Love You 📖🙏

“ *The Meza family sends our condolences to the family of our aunt, Olga Urquijo. As it was said earlier, she was the last of the Yanez sisters since all of her siblings had preceded her. My Aunt Olga always had a kind word to say to everyone, especially our family. We have a longtime and many fond memories with the Urquijo family. (Continued on memory page with the photo of Aunt Olga and me.)*

“ *My condolences to the friends and family of Olga. Bob and Olga were long time friends with my family. Whenever you e would go to her home she would always give us something to eat, sometimes, I think she was giving us the last of the food she had. I thought as a young child that she was so nice and always so pretty. Love, Linda (Key) Mayoros 📖*

SH

“ I known her since the 60's. I remember Olga making tortillas, Sheila, Michelle, Donna and I would walk in the kitchen one way grab a tortilla and then walk out the other door way. And she would scold us but then give us more.

I also remember when she was studying to become a nurse. She would sit in her chair with all of her books. I remember all the bones and muscles pictures in her books she would do her memorizing. She was a very smart lady.

Olga was always very loving and always smiling. She always will be in my heart. Love you Olga.
