“ Word of your father's sudden passing came as such a shock and I know well what his passing must mean to the family. I am very glad to have had the privilege of getting to know him and your mom so well, when they lovingly extended the offer for me to live with the while I attended UCLA, so many years ago. I will always treasure the many happy memories of our time together.

Nothing can take from the family the wealth of wonderful memories you all shared with your dad. He touched many lives and will be greatly missed. I know too, that your faith and courage will bring you all through this difficult time. Keeping you in prayer.

Hugs and God bless,

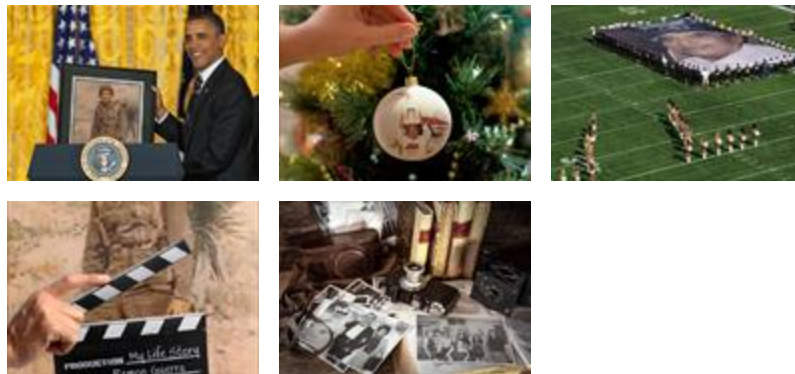

Love your cousin,

Connie and Frank
