“ *Ninong,
I was lucky to have you as my Ninong because you were part of my life since I was born. I always wondered how I became intrigued with airplanes and I remember your collection that I use to admire when I was a child. I have so many memories of you which I'll cherish forever. I will treasure the last time I sat next to you, outside the patio area, and we listened to Unchained Melody together, and the day before that you pulled yourself up to me and kissed me on the forehead and told me you loved me. I already miss you. I love you, Ninong ❤️ Love, Michelle*
