“ To Each of the Teston Family members,

I can barely imagine the grief that you must be going through at this time. I not only wanted to give my condolences but I wanted to make a special web page that could start to bring some healing to each of the Teston family and Robert's many friends. Robert will still remain in our hearts forever and hopefully this special website will help start many people on the path to healing.

Just know that each of the names that are signed on this Tribute Wall, and the messages written are all penned in love. These words speak of the simple fact that Robert continues to live in the hearts of the many people he left behind. It was our privilege at Green Meadows Hospice to be able to be there for Robert in his last days and hopefully we eased your burden.

It has been my experience that people heal much faster when they can come together and celebrate a life, and share their experiences and memories. I invite you to share a special memory, condolence message, upload your favorite photos and movies. Feel free to explore the many E-bereavement resources that are available to each one mourning the loss of Robert.

Someone has penned the words, "The greater the love, the greater the loss". Robert had a special love for his family and friends and it is comforting to know that you will see those smiles and feel those hugs again.

*Sincerely,
Chaplain Roger Rustad*
